## Objective

**Quality Assurance Engineer**

## Summary

Quality Assurance Engineer since 2015, experienced in testing across Mobile, Web, and Back-End platforms. Proficient in both soft and hard skills, including test planning, test writing, test execution, and bug reporting. Extensive experience in automation testing for Mobile (Native and Hybrid), Front-End(Angular, Node, VueJS), and Back-End(Restful), using leading frameworks and languages. Strong background in continuous integration, software versioning tools, and agile methodologies (Scrum, Kanban, Lean, XP, and Agile Testing). Experienced in working in international teams using English as the main language for communication.
